Accomplishments and milestones:

Work has not yet begun on this project, trips are tentatively planned for January through April.

Unexpected difficulties and project alterations:

Tragically, our project participant, Mr. Jerry O'Neill, passed away this December. Jerry's energy and enthusiasm will be missed, as we remember him fondly.

Next steps:

We will work with other members of the Cape SeaFoods company to identify who is best to fill Jerry's role in the project, and move forward with project objectives.

Impacts to fishermen/scientists:
